A	SCHOOL-BASED REINFORCERS **All repertoires below should be under Natural Reinforcement (NR) contingencies**
1	Student does not require interventions to reduce/replace stereotypy.
2	Student does not require interventions to reduce/replace other interfering behaviors
3	Student preferences for particular stimuli do not interfere with learning, daily living or school routines, peer interactions
4	Various and numerous stimuli function as reinforcers for the acquisition of new repertoires
5	Imitates peer behavior:
a	Gestural
b	Object use
c	Play sequence during free-play
6	Listens and responds appropriately to a story in a group of 3 or more students without disrupting the class for 90% of a five minute session
a	Read by a teacher with the book present, remaining seated and orienting
b	Story told by a teacher without the book present, remaining seated and orienting
	If 6b is not present, this may indicate a missing cusp
